Revision 3-5

OPTIONAL FORM NO. 10
Approved For Release 1999/09/08 : CIA-RDP79-01153A000100130003-4
UNITED STATES GOVERNMENT

Memorandum

TO : Director of Basic Intelligence

DATE: 30 August 1966

FROM : Chief, Cartography Division, OBI

SUBJECT: Review of Relations between CD/BI and DD/S&T

REF : Review of Relations between Intelligence Directorate
and Scientific and Technical Directorate Memorandum
dated 15 August 1966

1. In response to referenced memorandum the Cartography Division can comment only on item 1 as follows:

25X1B4b The relationship between the Cartography Division and components of DD/S&T is excellent. As a service organization providing graphic support to DD/S&T scientific and technical publications and briefing requirements, the Division has had close contact with many components of DD/S&T, usually through the Graphics Coordinator on the Staff of the Director. At present CD/BI provides graphic support to such DD/S&T publications as the Monthly Scientific Intelligence Digest, periodic Scientific Intelligence Reports, [REDACTED] publications, and others dealing with scientific and technical matters. In addition, briefing support of all kinds is supplied top level personnel. Special cartographic plotting projections have been provided [REDACTED] on a continuing basis. With the cooperation of ORD, OSA, and OCS the Division is developing ADP applications to cartographic production. These relationships have also been excellent.

25X1B4b

2. No changes are recommended for Item 1 of the 30 October 1963 memorandum.

25X1A9a [REDACTED]
